6.8 Teachers' Special Innovative Ideas (Brief description thereof)

Introduction of Flipped Class

It involves sharing of study material prepared by the respective class teacher on a particular topic and discussing the challenges, problems the given topic next day in class, making it a 'Flipped Classroom' on that day. Flipped classes help a teacher to understand the actual problems faced by a student in that particular topic or the courses and the paper. The study material includes text files, audio files, offline or online video files, which are shared through WhatsApp group or on YouTube link.

However, the flipped classes are not exercised on regular basis.
