

PLANTATION DRIVE

BY: NCC (ARMY / AIR WING)

DATED: 18-19 July 2020

In response to the challenges posed by the COVID-19 pandemic, which led to the closure of educational institutions and restrictions on mass gatherings, the National Cadet Corps (NCC) undertook a proactive approach to continue their environmental conservation efforts. A plantation drive was organized on July 18-19, 2020, where 28 NCC cadets planted tree saplings near their homes and utilized social media platforms to raise awareness about the importance of afforestation. The primary objective of the plantation drive was to adapt to the constraints imposed by the pandemic while continuing to promote environmental sustainability and community engagement among NCC cadets. By encouraging cadets to plant tree saplings in their residential areas and leverage social media for awareness campaigns, the initiative aimed to foster a sense of environmental responsibility and collective action despite the limitations of physical gatherings.
